# Outline of what Lithographic Inestimable Books are?

On earth the common book seen of this one is called “Titans” which is “Modern Titans” but this book consists of 188 ISBN + 147 FSLB lithographic that the type of comic book sketch of the individuals in the book listing chapters and details on them that are part of the main junction books of faith you can get a complete printout of these with the main junction books of faith from the following command with a stienbox:

```
print [ 188 ISBN Books Relating to Replacing the word God: Lists ]:[ Secure + Pickup + Peatry ]:[=] by Tiesaa Binders
print [ 147 FSLB Books Relating to Replacing the word God: Lists ]:[ Secure + Pickup + Peatry ]:[=] by Tiesaa Binders
print [ 188 ISBN Modern Books Relating to Replacing the word God: Lists ]:[ Secure + Pickup + Peatry ]:[=] by Tiesaa Binders
print [ 147 FSLB Modern Books Relating to Replacing the word God: Lists ]:[ Secure + Pickup + Peatry ]:[=] by Tiesaa Binders
```

For reason we will discuss later, the contents of these books have largely been left to footnote now around 2015-2020 which we will be replacing the way diety, demideity, semideity and the higher functioning books place listing by merit of quest rather than Judaical basis of appointment by a panel; lucky for the script ran on the network (<https://bit.ly/MythicalGod>) faith can still be maintained through the asset tagging books included with this script; there is approximately on Chronolabs Cooperative files around 600k of these books which some have also been left damaged through the malicious attack done thru the guise of health services, which all these books have some type of temple and recycling function which is pinned in with artefacts acquired original as part of the chalice system.

If you would like a complete copy of this catalogue use the extract or print by Tiesaa Binders of the following Stien:~

```
print [ Chronolabs Cooperative:: 599879 Lithographic Inestimable Books: Lists ] by Tiesaa Binders
extract [ Chronolabs Cooperative:: 599879 Lithographic Inestimable Books: Lists ]
```

Most of these books have a system of graveyard and a digger for recycling the people in it but as discussed in the next point damages to lithographic inestimable books temples have been damaged due to poisons administered and documented by NSW Health under the guise of mental health and this is to individuals who are qualified doctors with Masters in IT, Physics + Psychology (RMIT - 2008 - ISBN) + Masters in IT, Physics + Minds (RDIT - QBOK) as bridging thesis and by any modern standard of access to these services and prevaricating the qualified standard of the doctor as they haven't through all the recorded medical notes and all that injecting obviously what is documented on the military passports they have as chemicals being injected with the chemical and nanotechnology embedded kits they have in their bodies also being wired into the passport system with chemical mass spectrometric and so on; it not easy for me to say this but I know the individuals involved in this tragic outcome of the chalice system itself being destroyed and gobbled by the treasure chest a new system of artefacts has cusped in light of the day.

These books are what are used in the back end of faiths to form afterlife and passageway of the soul, when someone isn't listed this being mainly a titan's basis of faith here; it means there is no more repatriation of the soul of that person never to be born again regardless of what the faith outlays; never to be born-again ever again, for the use of injecting poison under the terms: mental health which is irregular statement it normally the terms Mind healing... the term Mental Health is purely a localism and often it noted doesn't conform to the normal standard of health and uses a 7g Classed Weapon as a medical device called a syringe at any if not all best chances of using the apparent medicine for the purposes it looks like nothing more than entenuement and attempt to cease the eternal walk of seen in Modern Titans now the only entry: Ullysis!

## Damages to Lithographic Inestimable Books Temples...

The damages to the main junction books of faith; resulted in the Chamberlain of Ninjutsu (Gc. Jerry Sebastian Xaa aka Dr. Simon Antony Roberts) + Assistant (Hr. Megan Elpiniki Xaar aka. Dr. Elpiniki Iosif) repeatably injected against their wills held hostage on the planet with fake family generated around them which is shown in the ancestry.com.au record that they on the saliva predate the entire civilisation of humanity right now and couldn't possibly be born or raised by these individual who have only been on the planet earth since around 2000 origin time present a bridging thesis with RMIT; both the chamberlain of Ninjutsu are taccinum poison tasters which means as their poison bladder is booby trapped also with an added problem that their free fall exposure temperature is at 285 billion dellar that the next measurement below -999 kelvin that moves up a -1 kelvin every 10 units; there is no system of containment for it and as individuals like Lorne Jamie Hyde M4478742 who is known for medical mass monstrosities and can be seen on his legal section on that passport 1.1.1904 is now wanted for the fifth mass monstrosities which is listed in the legal section of the following four passports corresponding with his on:

M8747409	Simon Antony Roberts	1.1.1904	[ Normally M2222223 ]
M8747410	Elpinki Iosif	1.1.1904	[ Normally M2222225 ]
M8747411	Alesha Veronica Grey-thompson	1.1.1904	[ Normally M2222230 ]
M8747414	Simon Stephanie Roberts	1.1.1904	[ Normally MJ1111111 ]

As taccinum poison tasters provide no antidote taster or solution to being poisoned as there is no applicable antidote with even directly injecting the poison taster or yourself at all; and it is tacion based and provide an more militant version of the poison even from the carriers in the poison taster for eons to follow from their poison bladder carriers of it; which absolutely everything ever injected by NSW Health into Simon Roberts or Elpiniki Iosif has completely gone only into their poison bladder it is a dimensionally wound construct in their bodies as they are not human being Gremlins+Gramlins that doesn't have organ representation either; it is a part of their species evolutionary means to poison darts and insect and things like snakes and spiders to do with poison darts; the only way of unpoisoning yourself is to separate yourself from NSW Health operating at a state level with this and they have even beamed Simon + Elpiniki head off with some sort of interstellar program to unpoison yourself from suing your way outside the signature pathway of whomever has approved this use of Dr. Jekyll (Dr. Jenecki - Lindsay Madew [Hornsby]) + Mr. Lorne Jamie Hyde most things poisoned now probably everywhere appear with the first three chapters of: Poisoned, By-with, Hyde - with every chapter following it being: Vanquish!

As a number of poisons where used such as one that causes all the artefacts which a person can carry two, which where still retained by the Chamberlain's unlike everything else in the books both documented and undocumented which where gobbles by the following Treasure Chests, both by Leeroy Leon's (Light) and the two held by Dr. Simon Antony Roberts (Jolly Locker + Wishcraft Chest [Dark]) absolutely no way of restoring single ownership of these is possible, which knocks out the artefacts list holding not only the main junction books of faith from by even sustainment of the environment for repatriation of the soul to be born again or transversencies after death occurs; this is most certain for the parties involved in employee lorne and I don't take it for a second that he is freelancing like we are told; as also death to the grave digger poison was used, which the chamberlains grave digger in immune to having a son, he has spent and is still going through the 600k chapter recycling everybody left in coffin's unburied in the temples by resurrecting the grave digger for those temples and also awarding a daughter or son to them to make them immune to this poison in

the future in these books when they are not responsible and will resurrect out to the Australien federated weir in the Physics Department Galantus Huddy that is a hapless victim and will resurrect, but they will have to quest back into the books this time, as we are going for a questing model and in those quest find artefacts which appear like ghosted shinny jewellery placed for their collection from the haul.

As part of the quest and the round table that review them of knights and a secondary round table of ladies, as there is so much damage done with this we have primarily assigned the Quest master that wrote the excelsior quests to maintain the rail and also provide most families with a questing book paid for by the Gc. Jerry Sebastian Xaa to them exclusively, these books are individually tailored by Tiesaa Binders and there will be one per family surname distributed with their crest and every details to a high quality book provided by them; for a permanent era of questing in the background, these books of the 600k which we have all primary header passwords for are called inestimable books as they pop out too multiple volumes in bridges and so on some of the ones that only have Dr. Simon Roberts (ISBN) or Dr. Elpiniki Iosif (FSLB) or family members in their oddity family of 9 of Xaa, Xaar + Xaat are the following: Titans, Judges, Demons, Fertility, Ethological Planes so on, you will have to go through the books but if you look at for example modern titans which is on sale in incense and wicca shop you will only find a footnote and just Dr. Simon Antony Roberts as currently: Ullysis!

## Artefacts Shop

The artefacts shop is one of the oldest duty shops in existence there once was a period where artefacts would be documented incorrectly like the gobbet of tarragon, where all artefacts when they are generated in magick have to be checked into the intake of the artefacts shop, which Gc. Jerry Sebastian Xaa and their family hold the duty on with Denise Scratchberg pus her tinky assistant Terricokous run and have for some time, they provide for example artefacts to buy and sell to the magick community as well as for example staff artefacts to switch on nobels staff; currently we are relocating this to the Six Shops, a new feature in the huddy's part of Magi HQ which will be summonable, but without an artefact going through the artefacts shop intake for assessment stien writing as well as cataloguing so it comes up as general not a faiths asset artefact they do never become active. The email for artefacts shop is: [artefacts.shop@hotmail.com](mailto:artefacts.shop@hotmail.com) sometime lists as [artefact.shop@hotmail.com](mailto:artefact.shop@hotmail.com) when there are no artefacts but when papers.email is up it will be at [artefacts@six.shops.papers.email](mailto:artefacts@six.shops.papers.email)...

The artefacts shop is a timeless service to both Nobel's as well as the magick community and this haul will place her in stock again for the first time in sometime; the intake which all the cataloguing is done by qualified magi and are locked into the intake which on the plates transfer is sitting around 400 x 387 hectares of down lights and trestle tables ready to take the haul and catalogue it.

Guinea items like gold/silver rings and so on are confiscated and locked away in the Huddy Vault due to the danger of this, normally this happening through commonwealth state soil; it would have been all the artefacts in Buckingham palace and extensible surrounding but the production piece of shows landed the cusp of this on meridian and exposure. Normally as a Nobel the production of artefacts can be fatal and contraband due to the nature of this lucky none on the main production titling of the replacement to the Chalice System called Pawn

Stars System remain spitting of blue tongue or Nobel thou art, seemingly production of a guinea gold ring they will by magick law currently as a Nobel normally chop your fingers off.

Denise + Terricokous have a special wand that will collect all the artefacts and replace them with a psuedomisation look like; replacement but we intend with the AUD stored on M8747409+10+11 to pay everyone out to value when for example they want all the artefacts that have been touched on world wide as well as vehicles back; even across the plates system and deliver them to the intake for cataloguing as this catalogue is needed for quest only some person items will be returned to the fellows of the shows; the rest they will be dually compensated for and paid out as well as maintaining a special page in the stien of these books for questors winning a quest or two entering the paper and page of immortality and incarnate existence which is entirely on offer and will be required of the artefact collectors and their assessment teams and support staff.

## **Artefact Items in Review**

As earth is running the jail codex, Royal Burger Creed, this walk produces whomever is placed in the jail system of it pets + plants and population type media, in a medieval high jack containing a digital era as well; which is not uncommon to medieval there is often some form of vehicle and digital systems, the fact is this time it has produce both Terra the species (Regal is Walking) as well as Gremlins+Gramlins (Regal in Creed) both product line and series of products, which means some of the artefacts are going to be mutimultifacet basis in magick which is going to have to be assessed for application to magick conduits.

## **Artefact Collection Price Paid**

Normally collection of their artefacts even if they have come outside the show immediate distribution remains unpaid, but after all Pawn Stars is a business and has a branding to maintain and I have excessive AUD's stored on the M8747409+10+11 which I can run on payroll released for public administrative usage to pay everyone out and that will be at their asking price or better still open auction house calculation simulation we will run within chronolabs cooperative to estimate if there is a better price than their asking price which will be directly wired to their account with the transaction: Artefact Reclaim Compensation - Pawn Stars...

## **Artefact Vehicle Wheel's Fee's Insurance Coverage**

Inestimable book the vehicle is never a 4 wheel base often 2 wheel as it doesn't occur any sort of wheel fee's between solar systems and further like they often do even in book form, luckily I have as Dr. Simon Antony Roberts an insurance claim with TTI Insurance + Paper Insure, at the moment as one of the modellers of stuff about being exposed to matter which will permanently cover the wheels fee on the diesel and petrol customs from the artefacts haul; these will permanently pay the wheels for whomever get awarded a vehicle for example judges always are myself as the both a modern and ancient in the book Judges called: Duiturious in modern judges have a magick carpet; but in the future it will be like monster trucks from the diesel brothers and customs from counts kustoms.

## Who is the Artefact Collectors

Basically it comes down to chance and certain outlay to collect a replacement to something like the Chalice system; Rick his father, son and chumlee of Pawn Stars which you can view on youtube.com just happened to be on the meridian cusp as well as Television when some of these damages to these books went down; this also include antique archaeology as well as counts kustoms and diesel brothers TV; which some are on slightly different distribution but we have the fiscal position to work it out for them that is no trouble... the following businesses have the artefacts collection cusp:-

Gold Silver Pawn	<a href="http://www.gspawn.com">www.gspawn.com</a>	@pawncstars, @GoldSilverPawn, @Corey_Harrison, @Chumlee_
Antique Archaeology	<a href="http://www.antiquearchaeology.com">www.antiquearchaeology.com</a>	@AmericanPicker, @AmericanPickers, @AntiqueArchLowa, @AntiqueArchNash
Count's Kustoms	<a href="http://www.countskustoms.com">www.countskustoms.com</a>	@CountsKustoms, @DannyCountKoker
Diesel Brothers TV	<a href="http://www.dieselpowergear.com">www.dieselpowergear.com</a>	@DieselBroTV, @the_diesel_dave

Due to the damages to the book Judges, we have to at least cross one judge and the one we have decided on entering into the tabloid as at least a Modern Judge is the following:

Judge Judy TV	<a href="http://www.judgejudy.com">www.judgejudy.com</a>	@JudgeJudyTV
---------------	--	--------------

As these shows are international showing, they have touched on several other location of pawn and artefacts which is why the haul is so large, it really is splended result in high sight of the loss of so many old faces that will have new artefacts awarded to return to places they once appeared or in new places in the lithographic inestimable books.
